

**Sutherland  
Dianella Primary**

# **Partnership with Parents Session**

## **FINE MOTOR SKILLS**

Curtin Occupational Therapy (OT) students will present an informative, hands on workshop about developing fine motor skills in children.

Fine motor skills involve the use of the smaller muscle of the hands, commonly in activities like using pencils, scissors, handwriting, construction, doing up buttons and opening lunch boxes.

This session will present information about fine motor skills and how parents can support the development of good fine motor skills essential for school and growing independence. They will discuss some of the signs of fine motor difficulties and where to seek help.

The session will be a 'hands on' session with the OT students sharing some fun, engaging and practical activities parents can do at home. It promises to be both an informative and enjoyable morning.

**Wednesday 22 March 2017 (Week 8)**

**9:30am (following school assembly)**

**School Library**

**Morning Tea provided**

Please RSVP at the office, by telephone 9375 1133 or by email
