Our Garden! Thanks to Anellio the gardener we are fortunate to have 2 types of cabbage, lettuce broccoli, flat leafed parsley, basil cauliflower and strawberries.
Our Worm Farm!

We were fortunate enough to receive a worm farm courtesy of the SDPS P n C Woolworths fundraiser from 2015. Here it is in the background while a Green Team member prepares the peat to lay in the bottom of the worm farm. At the moment alternating classrooms are having turns collecting food scraps.
Where is our produce going?

Our kind canteen ladies are beginning to use the lettuce for sandwiches and salad. The Cabbage and parsley has been used in our soup kitchen.
Our Rubbish Audit!

Patrick Hamill from Waste Wise came to educate us about how we can make the most from setting up a recycling system at school. We had a great time collecting rubbish from all over the school, sorting and weighing it.
What next?

We are making paper pots to sell live basil that you can plant at home. We would also like to begin selling some fresh produce by setting up a table on banking day, so keep an eye out and support the SDPS Green Team. Thank you to Mrs Hunter and Mrs Caporn.
