

Dear Parents and Carers

Thank you for taking the time to fill out the student surveys at the beginning of the year. I have already planned activities that link in to your child's interests in Maths, English and STEM. I will continue to do this as the year continues in an effort to build a stronger relationship with your child.

We are interested to learn more about you and how you contribute to the world we live in. This ties in nicely with our "Me" theme.

We would like to invite you into the class during Weeks 7 and 8 to give a short news story about yourself. This will help our class to prepare themselves for telling news in Term 2. Having you model news will be a fantastic way for students to show their listening skills and prepare for formal speaking.

We would like you to introduce yourself and what makes you special. Give a brief explanation of what you do each day (photos would be great, or a uniform depending on what you do). The students can then ask you a few questions.

A roster will be placed on the inside of the classroom door. Please choose a time that suits you and we look forward to sharing our classroom and learning experiences with you.
