

## Science Term 1 2017

### Year 1 Biology

Living things live in different places where their needs are met  
[\(ACSSU211\)](#)

WALT - Identify 4 basic needs of living things. (Air, food, water and Shelter) for our playdough pets

### Year 2 Biology

Living things grow, change and have offspring similar to themselves  
[\(ACSSU030\)](#)

WALT - Observe and describe the way a living thing changes as it grows

### Year 3 Biology

Living things can be grouped on the basis of observable features and can be distinguished from non-living things (ACSSU044)

WALT - compare a pebble and a bean seed and experiment to see if either of them is living.

### Year 4 Biology

Living things have life cycles (ACSSU072)

WALT - Make and record observations of living things as they develop through their life cycles

## Year 5 Biology

Living things have structural features and adaptations that help them to survive in their [environment \(ACSSU043\)](#)

WALT - Identify characteristics of animals that have adapted to a particular environment.

## Year 6 Biology

The growth and survival of living things are affected by physical conditions of their [environment \(ACSSU094\)](#)

WALT - Investigate how changing the physical conditions for plants impacts on their growth and survival such as soil types.
