Responsibility SDPS Community Charter

We take responsibility for creating a parent-friendly school and school-friendly homes, we do not lay blame for what is not working but share responsibility for success. We are all responsible for staying connected and modelling the right behaviours and we do this by:

- Ensuring students come to school, unless unwell, and arrive in class on time
- Supporting learning at school by helping to provide a time for homework that is free from distractions
- Attending school functions, showing the students we are interested in school activities and celebrate the success of all students
- Contributing to the life of the school in ways that reflect our experience, skills, interests and capacity to do so
- Keeping up to date with school communications and events
- Acting as role models by reflecting the core beliefs and values of the school and always maintaining high standards and expectations.
